

# NFE motivates VET school's teachers

Newsletter #2 | October 2018

Produced by TRY media team

## 1<sup>st</sup> short-term joint staff training event

From 3-7 September 2018, Cristuru Secuiesc (Romania) received the implementation of another step of Project TRY. This 1<sup>st</sup> training event had the objective of sharing good practices among teachers, that they can apply later in their teaching methodology, study visit to the partner VET school and Non Formal Education (NFE) training for future application in their own school context.

Also, from 7-9 September 2018, in Cristuru Secuiesc (Romania), took place the 2<sup>nd</sup> Transnational Project Meeting between all project TRY partners. The topic was Project Management and media development, but the participants took the chance to also discuss how the project was going and what should be done next. This meeting was held by Youth Association Transylvania (ATA), the romanian NGO partner in TRY project.

## Visit to ZEYC DOMOKOS

ATA visited the Zeyk Domokos Vocational high school to provide students with extraordinary lessons using NFE methods. First, they discussed about the coffee trade and the teenagers were enthusiastically connected to the modeled market situation, in which the various economic actors in the process of growing the coffee bean, the product on the shelf, had to take part and stand up for their own interests. In the constructed business situation, the development of vitality, advocacy, empathy, thinking in context, and effective teamwork has also been emphasized. On the second day, the classes took part in a mine-mining game, set up by an imaginary minefield, through which they worked on team building, but also on the skills of memory, monitoring, focusing and discipline. The last session was held on the 6 of March 2018 with almost 50 students and 5 teachers. It was organized in the festive hall of the school and was a world café debate regarding the management, sustainability and democratic practices in the school. It was an eye-opening session both for students and teachers.
